

VOLLEYBALL WORLD BEACH PRO TOUR FUTURES IN EUROPE 2026

EVENT RIDER

Issued: 17.11.2025

1. INTRODUCTION

The Volleyball World (VW) Beach Pro Tour (BPT) is the premier global Beach Volleyball competition composed of the best Beach Volleyball athletes from all over the world competing against each other for the top spot on the podium and valuable FIVB Ranking points.

Building on the FIVB–CEV collaboration established since 2018, the CEV will once again take responsibility for organising all **Beach Pro Tour Futures events in Europe in 2026**.

As in previous years, the event delivery model will be implemented in close coordination with the FIVB. The CEV will oversee and manage all event parameters, fully applying the *FIVB Sport Operations Manual* for all competition-related aspects, while the operational details are outlined in this *VW Beach Pro Tour Futures in Europe – Event Rider* document.

The VW Beach Pro Tour Futures events are built in conjunction with the FIVB, local promoters, and National Federations. The delivery of the event is under the responsibility of the appointed co-organisers. The competition format and rules of the game are governed by the FIVB.

For the VW BPT Futures in Europe, CEV acts as the managing authority in close collaboration with the FIVB setting the event conditions and requirements as presented in the respective [Candidature Application Guidelines](#)

Highlights of a VW Beach Pro Tour Futures event:

- Includes 16-team qualification tournament to qualify 4 teams advancing to the 16-team main draw event, per gender,
- Features teams from all over the world competing in the event,
- Requires a minimum of 2 competition courts plus 2 warm up courts (less courts can be used subject to CEV/FIVB approval),
- Participation of upcoming teams rising through the rankings alongside the best host country teams.

The FIVB/CEV also welcome applications for a 24-team Main Draw, In such cases, some of the organising conditions, such as the minimum number of courts, need to be adjusted.

This document is intended to provide the Local Promoter/LOC with an overview of the requirements necessary to properly and professionally present a VW BPT Futures in Europe event.

This document outlines and covers the various event delivery areas and the scope of execution required from the Local Promoter/LOC within those areas.

Please note that some of these requirements are firm and mandated by FIVB competition regulations and allow no flexibility. Those items will be made clear within this document. There are other areas of this document that allow the Local Promoter/LOC to be creative and should be adapted to local safety, building code, the time of year of the event, the chosen site characteristics, its limitations and benefits, the host country, local customs, and other relevant factors.

Examples of venue layouts can be requested to the CEV as reference in creating your own event plan.

It is essential that someone with good to excellent abilities in English serves as the main contact from the Local Promoter's /LOC team for the CEV, from the start of the planning through to the execution of the event.

The Local Promoter /LOC is responsible for the complete operation of the event.

The main areas of responsibility include:

- Site/Venue Preparation,
- Site/Venue Build – infrastructure, equipment, grandstands, courts,
- Site Operations – power, IT, asset management, facilities,
- Venue Operations – ticketing, box office, volunteer program, security, wayfinding, Fan Fest concessions,
- Operational Staffing,
- Coordination with National Federation for additional technical Beach Volleyball requirements and support,
- Logistics – accommodations, ground transportation, catering, accreditation,
- Code & Compliance, Health & Safety, Incident Management.

The CEV provides a number of tools to ensure the smooth build-up of the event prior its start. All aspects of the event are subject to review and approval of the FIVB/CEV.

All files, plans, drawings, and documents related to the event must be submitted in English for approval and must comply with the guidelines provided by the CEV and the provisions outlined in this document.

2. TYPICAL MATCH FORMAT

Please note that the schedule below is a template, the number of courts and days may be adjusted according to Local Promoter/LOC possibilities.

Each Local Promoter/LOC is requested to submit their proposal for the competition schedule considering daylight conditions, the existence of floodlights and the public habits and routines in following sport events.

A draft of the competition schedule needs to be presented together with the Candidature Application form.

BEACH PRO TOUR – FUTURES - MATCH SCHEDULE TEMPLATE

Date	Time	Center Court	Court 1
Day 1	09:00	W-QT-R16	W-QT-R16
	09:45	W-QT-R16	W-QT-R16

	15:00	M-3rd Place	
	16:00	Women's Final	
	17:00	Men's Final	
		Awarding ceremony	

In all VW Beach Pro Tour Futures in Europe No COUNTRY QUOTA PLAYOFF matches will be played onsite. Each National Federation shall be responsible in conducting the COUNTRY QUOTA PLAYOFF matches (if any) and should you need any assistance, please address to the FIVB/CEV for recommendation.

3. VENUE & SITE

The choice of a site is essential for a well-executed event. FIVB/CEV recognises that all sites present different challenges to overcome and will vary in size and shape.

Each Local Promoter/LOC may choose their preferred site and present it in detail in the Candidature Application document. A site/venue layout must accompany this Application.

The CEV retains the right to conduct a site visit for final evaluation and approval. In case a site visit is required, all costs related to accommodation, transportation and catering must be covered by Local Promoter/LOC for a maximum of 1 CEV representative.

The Local Promoter /LOC is responsible for obtaining all relevant permits and adhering to local regulations related to the event.

Items to consider when selecting a site include:

- Overall event footprint approximately 5,000 square metres,
- Areas to include competition courts, warm up court, athlete areas, public grandstands. Possible Fan fest, sponsorship activations, merchandising, food and beverage services, VIP, parking, etc.,
- Positioning of the grandstand(s) and playing courts in relation to the sun position during daylight hours,
- Positioning of the grandstand(s) and playing courts in relation to local sights, topography, views, etc.,
- Existing, available, and usable site infrastructure (i.e., power, water, buildings, offices, internet, seating areas, etc.),

- Smooth vehicular access for trucks, heavy equipment, TV broadcast vehicles, emergency vehicles, VIP needs, etc.,
- Available parking and staging areas for set up and event operations,
- Proximity to hotels, airports, city centres, public transport, fan parking, etc.,
- Available historical wind & weather anomalies,
- Sustainability and environmental impact - “Leaving No Trace” at end of event.

3.1. Venue, site plans & facilities

The site plan submitted to the CEV Beach Volleyball Department along the Candidature Application must be detailed and presented in English, drafted to proper scale, and include the following:

- Centre Court competition area with a seated grandstand,
- Side Courts,
- Athletes' warm-up court,
- Designated CEV / Local Promoter / LOC office space and Back-of-house areas for athletes, officials and staff.
- See site plan and the CEV Beach Volleyball Guidelines, Section 4 - Organiser,
- Event equipment storage areas, etc.,
- Restroom facilities for public, athletes, staff, volunteers, etc.,
- DJ & MC area with cover/ protection for all weather (rain and sun). The area must be visible to all fans,
- Mixed zone area,
- Sound system and proposed site lighting for dusk hours and night-time security,
- Public entrance and exit flows, with clear signage,
- Food and beverage services for the public,
- Fan engagement area with proposed interactive activities & activations (recommended) including Sponsorship booths / exhibition areas (if applicable). First Aid locations,
- Ticket offices (if applicable),
- Parking area for television broadcast truck(s) and support vehicle(s) in close proximity to Centre Court and for the general public (if applicable),
- Power & cabling routes,
- Required fence lines and security barricade lines,
- Emergency lane(s) within event site, as required by local fire, police and ambulance services.

Please note that the venue structure must be fully completed 72 hours before the first match of the competition.

3.2. Power

Sufficient power must be provided on site to ensure the proper delivery of the event. Shore or existing venue power is preferred, however, if temporary silent-run generators are to be used, the Local Promoter / LOC must ensure that acceptable redundancies with a transfer switch are planned, together with refuelling schedules, the hiring of qualified generator operators, and consideration of exhaust fumes and other related factors.

The exact power, cabling, and cable matting plan shall be determined in consultation with the Local Promoter / LOC's contracted electrician. Additional power may be required for sponsorship and VIP activations.

3.3. Offices / Trailers / Tents

For planning purposes, the Local Promoter / LOC should plan to accommodate the following “back-of-house” (BOH) requirements for on-site production space needs. The below listed areas may consist of existing rooms within a structure already on the site, short-term portable trailers or office containers or finally, all weather tents with walls on all 4 sides and flooring. All areas must be supported by a contingency weather plan. The planning of all required areas must be approved by FIVB/CEV Beach Volleyball Department.

All rooms – at a bare minimum:

- Must be equipped with tables, chairs, power outlets and refrigerator,
- Must have stable internet / WIFI. (See IT part of the document),
- Must be lockable/secured.

A detailed office furniture, fixture, and catering plan – per room – shall be developed in consultation with the CEV Beach Volleyball Department during the event advance phase.

The required rooms/ offices with approx. size (subject to change and approval) are:

- Athletes Area – 30m² including an Athletes Lounge – 20 m² and Athletes Locker Room (1 per gender, including shower, toilets) – 10m²,
- Athlete Medical Area – 10m²,
- Physiotherapy Room – 20m²,
- Anti-Doping Control Area – 40m² Including a waiting room - 25m² and a sampling room of 15m²,
- 2 toilets - 1 per gender,
- Referees Area (including lounge and 1 locker room per gender) – 30m² including a Referees Lounge – 20m² and Referees Locker Room - 10m²,
- Local Officials Area (line judges, etc.) – 20m²,
- Volunteer's Area – 10m²,
- CEV Office – 10 m²,
- Local Promoter / LOC / Site Operations Office – 20m²,
- Security Office – 10m²,
- Accreditation/Ticketing Office – 10m² (if applicable) ,
- Asset Management Office – 30m²,
- Staff Catering Area – 30m²,
- Public First Aid Area – 30m²,
- Disposal and Machinery / Storage Room – 30m².

3.4. Grandstands, Tribunes & structures

STRUCTURE REQUIREMENTS:

- All structures must comply with European building codes & standards or the local equivalent.
- Construction and assembly must be carried out by an authorised licensed company.
- A complete sign-off by an accredited structural engineer is required, together with proof of civil liability insurance.
- If the CEV Beach Volleyball Department or the Technical Delegate on-site considers the site, structures, or plans to be unsafe at any time, they have the right to postpone or cancel event.

The insurance policies and safety certificates for the stadium and any temporary structures must be submitted in English, either in full or as a certified abstract, no later than one month before the start of the competition.

4. FIELD OF PLAY/ COURTS

The Local Promoter / LOC is responsible for the set-up of the competition area in accordance with the FIVB Official Beach Volleyball Rules.

The orientation of the courts must take into consideration the angle and direction of the sun at different times of the day during the season, especially during the TV produced matches. The sun should face the main TV cameras to minimize shadows.

In areas with strong winds, the stadium structures must be orientated to protect the centre court and the side court. The final positioning is subject to approval by the CEV Beach Volleyball Department.

If the courts are located away from the beach, the sand must be contained by a safe structure to keep it in place and ensure that it does not cause harm or injury to the athletes. The recommended boundary between the sand and the surrounding surface should be soft, such as rubber expansion joint material.

4.1. Centre Court Grandstand

There are several options for laying out the centre court grandstand based on location, event requirements and local building codes.

The recommended set up is as follows:

- Area 1 – General admission section – Uncovered seating in a stadium-style configuration with tribunes on at least two sides and a minimum capacity of 500 spectators,
- Area 2 – VIP – covered seating with room areas for minimum 50 people,
- Area 3 - Accredited seating - designated covered seating with room areas for minimum 50 people.

Each location and market will have its own specific characteristics. This layout serves as a guideline; consultation with the CEV Beach Volleyball Department is required for final approval of the grandstand layout and VIP area.

4.2. Second Court

- Court side seating/viewing areas.

4.3. Key site & Facility Planning requirements

- All power / IT / infrastructure cabling that runs along high traffic areas must be protected with cable matting. Any cabling in public areas must be covered with accessible cabling matting.
- Public toilet facilities should be provided at a minimum ratio of one toilet per 50 people, or in accordance with local regulations. Additional toilet facilities may be required for food and beverage areas, as determined by local regulations.
- Separate back-of-house toilets must be provided for athletes, officials, referees, and event staff.
- All toilet facilities should also include access to sinks, soap, and waste containers.
- Showers are required at or near the athletes' area, with a minimum of one shower per gender.
- Smoking should only be permitted in a designated, fenced area outside the venue, in accordance with local guidelines, and away from all other structures.
- All structures, areas, and pathways must comply with local fire and building codes.
- The entire site must have lighting coverage of at least 100 LUX during hours of darkness.
- The site should be completely enclosed by 2.5m event fencing covered with screening material.
- The use of temporary barricades should be used for line cueing.

4.4. Parking & Public transit

It is important to consider the number of parking spots within an acceptable distance of the site for event shuttles, vans, runners' vehicles. Patron parking for the event may also be an additional source of revenue for the Local promoter /LOC and can be used to enhance VIP packages.

Public transit access should always be taken into consideration when choosing an event site.

4.5. Streaming

The production of a World Feed or Streaming Feed is mandatory for the Semi-Finals and Finals matches incorporation the official TV graphics.

The conditions and requirements are provided by the CEV in the Candidature Application Guidelines and are further detailed in the Co-Organiser Agreement. The Local Promoter/LOC is responsible for delivering the feed to the CEV In accordance with the provided RTMP guidelines.

RTMP Details will be shared with the local promoter/LOC once the schedule is confirmed.

A test with the CEV broadcasting agency will be conducted to ensure the quality of the stream.

The CEV will be providing access to the required TV graphics.

4.6. Camera platforms

All camera platforms must be properly isolated (if applicable).

The Camera Plan must be confirmed and approved by the CEV TV & Digital Department no later than 14 days before the competition.

5. COMPETITION

5.1. Courts (see article 4)

Note this is the most important part of the event set up. The court must be constructed exactly in accordance with FIVB specifications and measurements.

Dimensions:

A playing area of 26m X 18m must be set up, with no obstruction lower than 12m above the court.

Smaller free zones can be accepted, but the minimum requirements must comply with the Rules of the Game, point 1.1.1, and shall be approved in advance by the FIVB/CEV.

5.2. Sand

Local Promoter / LOC is responsible for securing sand for the competition and warm-up courts as per the specifications set by the FIVB:

Name	Particle Diameter	Spec. (% ret. on sieves)
Gravel	> 3.35	0%
Fine gravel	2.0- 3.35 mm	0%
Very coarse sand	1.0 mm – 2.0 mm	0% - 6%
Coarse sand	0.5 mm – 1.0 mm	Min of 80% - Max of 92%
Medium sand	0.25 mm – 0.5 mm	Min of 80% - Max of 92%
Fine sand	0.15 mm – 0.25 mm	Min of 7% - Max of 18%
Very fine sand	0.05 mm – 0.15 mm	Not greater than 2.0%
Silt and clay	< 0.05 mm	Not greater than 0.15%

These requirements related to the particle sizes allow an excellent drainage properties and must be met to successfully provide a well-drained and non-compacted playing surface in adverse weather conditions.

The sand on the court should have a minimum depth of 40 cm.

The recommended sand for Beach Volleyball court installations must also meet the following physical properties:

- Be naturally weathered,
- Be sub-angular/rounded,
- Not be acquired from a crushed rock source,
- Be free of organic and deleterious materials; free of shells and coral,
- Have an aesthetically pleasing, non-glaring colour, preferably tan, cream, off-white, beige, blonde or pale brown.

FIVB sand specifications with sub-angular particles enhance the soft texture of the sand, improving athlete safety (less abrasive than angular particles). Contaminants can alter the physical properties of the playing surface and may result in an injury or non-playable court surface.

All sand used at FIVB Beach Volleyball events must be evaluated by the FIVB Official Sand Laboratory. The CEV Beach Volleyball Department will provide the respective detailed instructions.

5.3. Nets

The Net system used for the event must have all branding covered (unless it is the Senoh brand) that includes Net, Poles, Referee Chair, Lines and covers.

5.4. Lighting system

VW Beach Pro Tour events may include day and night sessions to enhance attendance and entertainment experience.

For night sessions, the lighting system must:

- Provide a minimum of 1500 lux, measured 1 meter above the sand,
- Be ready for testing with FIVB/CEV and broadcast departments at least 3 days prior to the event, if applicable.

Specialized lighting or effects, such as theatrical or spotlighting for player introductions, entertainment, and end-of-match celebrations, should be planned and approved by the CEV Beach Volleyball Department. Additional recommended lighting includes Architectural lighting for VIP areas.

5.5. Field of Play (FOP) Equipment

The CEV is providing a number of MIKASA competition and promotional balls for the event. The Local Promoter / LOC must specify, in the Application form, the contact person and entity to whom these balls will be addressed.

The Local Promoter / LOC Is responsible for any costs associated with the customs clearance of the MIKASA balls.

- **VIS results and E-Scoresheet software:** The use of the CEV (and not FIVB) E-Scoresheet and match statistics software is mandatory for all matches. The organiser is responsible for providing the necessary equipment and experienced staff to support the competition, as listed in the Candidature Application Guidelines. Detailed requirements for match technology and data collection are specified in the Co-Organiser Letter of Organisation / Organiser Agreement.

Equipment secured by Local Promoter/LOC:

- **Uniforms** – Technical delegate(s), athletes, referees and line judges including:
 - 1 polo shirt per competition day,
 - 1 cap,
 - 1 pair of shorts,
 - 1 rain jacket,
 - 1 sweatshirt / long trousers for low-temperature conditions.

The minimum number of uniforms per gender for the participating athletes is annexed at the end of this document and the layout is defined in the Venue Branding Guidelines.

- **Sport Equipment:** as detailed in the ANNEX 2 of this document
- **Advertising boards:**
 - Advertising boards are to be placed around the centre and side court(s),
 - It is recommended to use LED banners for the centre court,
 - In case of static panels these need to have a dimension of 1 m height x 3.0m length. The set up Is detailed in the Venue Branding Guidelines,
- **Flag poles:** Poles for the flags of the participating countries and sponsors must be installed in the top of the grandstands around the centre court. The set up Is detailed in the Venue Branding Guidelines.

5.6. Medical

Medical & Anti-Doping Regulations must be strictly enforced.

During the competition, the Local Promoter/LOC must provide medical assistance for the athletes, including:

- Access to accredited physiotherapists and doctors on site,
- Medical room requirements:
 - bed(s),
 - basic medical materials and equipment,
 - defibrillator and oxygen,
 - equipment to assess and treat dehydration and hyperthermia,
 - stretcher(s),
 - ice machine,
- The medical space must be protected from the open air and climate controlled,
- Nearby hospitals must be assigned for emergency specialist care and hospitalization, if needed,
- The list of doctors and health care professionals should ensure the presence of one **Medical Doctor and one physiotherapist per gender** per venue throughout the competition (from the official training day until the end of the competition, daily working schedule shall be from 30 minutes before the competition/training session until 30 minutes after the last match/training session).

The FIVB Medical department may ask for the submission of the Doctor's and physio's CV for approval.

5.7. Anti-doping

Agreement to conduct doping controls on behalf of the FIVB with national or other anti-doping organisations as well as any related expenses, will be under the responsibility of FIVB/CEV.

- The Local Promoter / LOC must organise a self-contained space divided into three sections, as detailed in point 3.3,
- The waiting room should be well supplied with refrigerated sealed bottled soft drinks and water,
- Equipped with a lockable refrigerator.

5.8. Awarding

For the VW Beach Pro Tour Futures events in Europe, CEV provides the medals for each event.

The Local Promoter / LOC is responsible for preparing and delivering the ceremony equipment as detailed in the Venue Branding Guidelines and providing the personnel as outlined in the CEV Beach Volleyball Guidelines - Section 4 Organiser, including:

- Event Trophies x6 (i.e. 1 per team per gender) or x12 i.e. 1 per athlete per gender),
A unique trophy reflecting local characteristics of the host city is preferable,
The plate on the trophy must comply with the exact title stated in the Venue Branding guidelines and must be submitted for CEV approval,
- Awards Podium – to fit 3 teams,
- Awards table,
- Carpet – from the presenters' position to the awards podium (recommended),
- Ropes/Queue barriers for media (5m),
- Gifts and mascots, if applicable,
- Champagne (x 12), If applicable.

The Local Promoter / LOC will assign a Master of Ceremony who will prepare and present to the Technical Delegate the Awarding Ceremony concept, the people involved and a plan of flows and actions.

This person will also coordinate the Ceremony rehearsal the day before and will coordinate the Ceremony protocol and timings in close cooperation with SPR Team.

6. PRODUCTION

6.1. Sound

A high quality, well-tuned sound system capable of 95db/5,000 watts, must be provided for announcer commentary, music playback, DJ, video content and emergency messaging. Speakers should cover the entire venue. Additional coverage may be required in VIP areas and Fan fest.

The following equipment and setup are also required:

- DJ equipment, audio mixer, cables and playback monitor,
- Wireless microphone package,
- Monitors and/or foldback, as required,
- Mics for DJ, announcer and host,
- Clear communication system with wireless units, as required.

7. ENTERTAINMENT & ENGAGEMENT (E & E)

The Local promoter / LOC must develop an entertainment plan for the event and submit it to the CEV for approval. The plan may include venue technology and digital engagement, content management, crowd engagement, live performances at the centre court and a sufficient number of sports presentation and entertainment personnel, such as a venue host & MC.

Local Promoter /LOC is responsible for providing:

- MC (they should speak English and local language),
- DJ (they should speak English and local language),
- Infrastructure & equipment – see production,
- Local staffing (e.g., runners, volunteers and floor manager etc.).

Further guidelines can be provided by the CEV upon request.

8. VENUE OPERATIONS

8.1. Staffing

The Local Promoter /LOC is responsible for the complete operational staffing of the event outside of the following:

- CEV/FIVB Technical Delegate,
- CEV Sponsorship activations (if applicable).

Each event and location will have different variables and staffing needs. The Local Promoter / LOC remains fully responsible for ensuring that the event is adequately staffed across all operational areas.

I. CORE STAFF

The Local Promoter /LOC must submit an event organisational chart, including key event personnel, to the CEV Beach Volleyball Department within the required timelines.

The chart must demonstrate that sufficient resources are secured for the following areas:

- Competition Management,
- Court staff, as per point 8.2 below,
- Venue Operations,
- Sport Presentation,
- Back of House (BOH) medical services,
- E-Scoresheet and Match Statistics.

All Organisational Committee members should be fluent in English.

II. OTHER EVENT STAFF

Outside of the core event staff, the Local Promoter / LOC will need to contract, as required, the following:

- Accreditation Centre (volunteers may be utilised),
- Box Office / Ticket Takers (volunteers may be utilised),
- Information booth (volunteers may be utilised),
- General first aid services for public,
- Parking attendants (if applicable),
- Stagehands / Site crew,
- Cleaners,
- Concessions,
- Host / hostess,
- Merchandise sellers (If applicable).

III. VOLUNTEERS

Volunteers are a huge part of any sporting activity. It is essential for the Local Promoter / LOC to establish a volunteer programme. Volunteers can be utilised for roles such as ball kids, ushers, chaperones, ticket takers, information booth attendants, wayfinding etc.

The following provisions should be included in the volunteer programme:

- Dedicated coordinator to manage and oversee volunteers,
- Uniforms (e.g., minimum t-shirt & hat),
- Snacks / meals, as required,
- Transportation reimbursement to and from venue.

8.2. Referees, Auxiliary Officials & court staff

In collaboration with the hosting National Federation (NF), the Local Promoter / LOC is responsible for the selection of the qualified officials and referees as detailed below:

- 1 Referee Manager,
- 1 Assistant Referee Manager supporting e-scoring,
- Referees (4 per competition court with at least one of them being International / International Candidate Referee),
- Ball checker,
- Line judges (at least 3 per competition court),
- Scorers (at least 3 per competition court),
- Court manager (at least 1 per competition court and warm-up court),
- Ball retrievers (5 per competition court per shift, with 2 shifts per court recommended if working long hours during the day),
- Rakers (minimum 2, recommended 4 per competition court per shift and 2 shifts per court if working long hours during the day),
- Other court personnel (athlete's attendants, sport equipment coordinator, etc. depending on the needs of the competition).

8.3. IT

COMPETITION VENUE:

Internet and Connectivity: The Minimum requirements are the following:

- The entire site must have a **dedicated main Internet link of 500 Mbps**

- The **entire site** must also provide **password-protected Wi-Fi**, with a **limited 50 Mbps** allocation for the following groups:
 - Athletes,
 - Officials & Referees,
 - CEV Office,
 - VW Beach Futures Tour-Media
- The Official e-scoresheet table requires 1 x RJ-45 internet connection with a guaranteed 10 Mbps up-speed per match court,
- The Official statistics table requires 1 x RJ-45 internet connection with a guaranteed 10 Mbps up-speed per match court.

A backup internet link with automatic switching must be provided in case of a service disruption with the main link.

The final specifications of the Venue WIFI networks and cabled connections must be submitted to and approved by the CEV Beach Volleyball Department prior to implementation.

8.4. Signage

All signage must be designed to withstand weather and wind conditions. For signage such as grandstand screening / blow through wrapping, the material must be considered for any engineering calculations of the structures.

It is imperative that wayfinding signage is given priority throughout the event site.

The site wayfinding signage should be universal; pictograms & symbols are encouraged. Depending on local regulations and customs, signage may need to be provided in both English and the native language.

8.5. Cleaning & waste

A comprehensive cleaning and solid waste management plan must be implemented. This plan should include grey water disposal. Dumpsters will be required throughout the site build, event, and load-out, with 24-hour pick-up/drop-off service if necessary. The plan should address the following areas:

Front of House (FOH)

- Contracted cleaning of public areas, food areas, toilets, parking lots, outside of venue entrances, grandstands,
- The cleaning schedule should reflect crowd traffic, breaks between matches,
- A complete wet-down maybe necessary for food and beverage areas on a nightly basis,
- Ensure an ample supply of waste, recycling and compost containers through the FOH areas,
- Budget for a general site cleaning before opening to public and after loading out.

Back of House (BOH)

- Contracted cleaning of office trailers, food areas, locker rooms,
- The cleaning schedule should reflect the workflow of staff and athletes,
- Ensure an ample supply of waste, recycling and compost containers through the BOH areas.

8.6. Venue & Site Equipment

Heavy equipment may be required for the site construction, see below a list of examples:

- Forklifts with lifting capacity and extensions,
- Hand pallet truck,
- Telehandler (12m reach / skyjack forklift),
- Telescopic boom lift (if needed),
- Scissor lifts (if needed),
- Telescopic site lighting,
- Propane cages,

- Various other items to consider; Tables, chairs, garbage cans, fire extinguishers, mops, brooms, coolers, locks, tools, work lights, extensions cords, power bars, tents, road cones, sandbags, fans, dollies, sash cord, first aid kits, bull horns, tarps, flashlights, etc.

8.7. Security

Local Promoter / LOC must contract a licensed security company. The site must be secure 24 hours a day from the beginning of load-in to the end of load-out.

A Security deployment (“Dot Map Plan”) will be developed in consultation with the CEV Beach Volleyball Department and must comply with local requirements.

In addition to the security plan, it is recommended to have some police presence on site during the event to complement the above plan. This will be subject to local regulations and practices and must be discussed and approved by FIVB/CEV.

The security plan must be shared with the CEV for approval no later than 30 days prior to the event.

8.8. Accreditation

From the beginning to the end of the competition, all personnel and participating athletes, coaches and officials must have visible accreditation. The accreditation matrix must be developed and approved in consultation with the CEV Beach Volleyball Department. Accreditation serves as identity verification and access control. There can be no security plan without an accreditation zone map. See below for some suggested zones.

- FOH,
- BOH,
- FOP,
- Athlete Area,
- VIP,
- Broadcast,
- Media.

The templates of the accreditation cards are presented in the Venue Branding Guidelines.

8.9. Communications

Radio communication within the entire site will be always required. The Local promoter / LOC shall develop a radio matrix ensuring the following:

- Ample signal coverage throughout the site,
- Any locally required frequencies/ licences must be secured.

In addition, **clear communications** (see Production) will be needed, as required, for the following areas:

- FOP,
- Entertainment & Engagement.

8.10. Water

A water source must be available on site for the following purposes:

- Wet-down of FOP sand,
- Possible wet-down of Food and Beverage areas on a nightly basis,
- Cleaners,
- BOH Showers.

8.11. Fan Engagement Activities

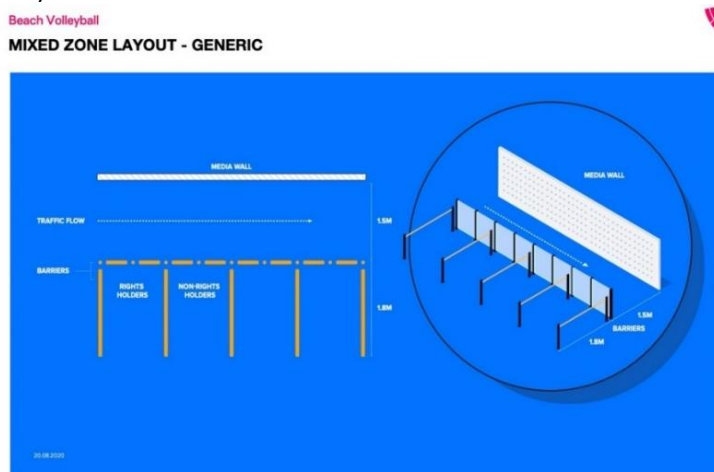

It is recommended that the event includes a Fan Engagement Area, which should feature:

- Vendors and sponsors,
- Family-friendly activities and exhibits,
- Public relations activities to attract public and media interest,
- Merchandise tent,
- Concessions.

8.12. Media

I. Mixed Zone

- Conveniently located and easily accessible to all courts, yet outside the competition area,
- Features the official backdrop and designated for official post-match athlete interviews,
- Ensure sufficient lighting for evening matches interviews (if applicable),
- Barriers (roped/fixed) should separate the media from the athletes (as the Mixed Zone is not a free-access zone).

II. Media Tribune

- A designated area for 10 people, located within the accredited seating of the grandstands, ensuring easy access to the Mixed Zone.

8.13. Photographers

The local promoter/LOC must assign an official photographer for the event. He/she will be responsible to upload solely, through the CEV Photo Gallery Management system, up to 30 pictures for each day of action and 50 for the final day including the awarding ceremony.

All files shall be provided in JPG format only and their size shall be approximately 2500x1500 px.

The CEV will provide the link and login credentials for the platform a few days before the start of the competition.

8.14. Accessibility

The venue and official hotel must consider the needs of every participant or patron.

- Ensure the entire event site is wheelchair accessible,
- Provide sufficient space between tables, structures and pathways to facilitate wheelchair movement.

Please provide an area where at least five (5) accessible patrons can be positioned with support companion.

It should be accessible with ramps and secured with handrails, offer a clear view of the Field of Play (FOP), be positioned to allow fast and safe evacuation if required, be protected from potential impact from balls or players during warm-up and matches, be located near adequate accessible restroom facilities.

8.15. Emergency Services

- **Police:** To be officially Informed prior to the event,
- **First Aid:** For public and only during operating hours, in line with local requirements,
- **Advanced Primary Care:** An ambulance, parked as close to FOP as possible and adjacent to the Medical Area, be equipped with a defibrillator available at all times and staffed with Paramedical personnel during the entire competition. Have full transport capability for emergency.

8.16. Incident plan & Reporting

This plan identifies the key personnel and the appropriate responses to a range of potential incidents, as well as the protocols for liaising with senior management, emergency services, and communications/media. The plan must be approved by the FIVB/CEV Beach Volleyball Department and must include the FIVB/CEV-assigned delegates on site.

The Incident Management Plan should include:

- Incident command location,
- Incident management team,
- Emergency contact numbers,
- Escalation process,
- Communication protocol,
- Evacuation plan,
- Emergency playback system & announcement scripts.

Incident plan should be submitted to the Technical Delegate on site upon arrival.

Health & Safety

Volleyball World and FIVB/CEV are committed to providing and maintaining a healthy and safe environment, requiring all individuals performing work to adhere to the established health and safety standards. All staff, volunteers, contractors, sub-contractors and their personnel are responsible for complying with the applicable local Health & Safety Acts and Regulations.

Personal protective equipment must be used at all times when required under local regulations.

All incidents must be documented through an incident report. All incident reports must be submitted to the on-site Technical Delegate and to the CEV Beach Volleyball Department.

9. TICKETING

The Local Promoter / LOC will establish a ticketing strategy with seating plans and ticket scaling, if applicable. Options may include general admission, assigned seating, courtside experiences, VIP areas and VIP hospitality packages. The Local Promoter should also develop a contingency plan to “dress the room” in order to maintain a full and engaging atmosphere within the grandstands. Examples include branding seats or relocating spectators to the main camera view.

9.1. Complimentary ticketing policy

The FIVB/CEV may require up to 10 Complimentary tickets and up to 20 Complimentary VIP tickets per match for the CEV guests and partners.

Such request will be confirmed to the Local Promoter / LOC latest 2 weeks prior to the event

10. LOGISTICS

Local Promoter is responsible for the ground transportation, accommodations, and catering (3 meals per day) for the following:

GROUP	TOTAL PARTICIPANTS	NIGHTS	OCCUPANCY
Technical Delegate	1	-3 days until +1 day	Single
Other assigned officials	Tbc	Tbc	Single
Referees*	4 per competition court	-2 days until + 1day	Double/single
*Note: It is required to have at least one International Referee per competition court among the 4 referees required above.			

10.1. Entry Visas

- Upon request, the Local Promoter / LOC shall supply an official invitation letter and extended entry visa assistance to the requesting participant,
- The arrangement of the physical visa remains the responsibility of the participant, as do any costs associated with passport or entry visa administration.

10.2. Hotels

If the organiser provides accommodation for Main Draw teams, the following recommendations should be considered:

- A 3-star hotel or equivalent that meets the requirements below,
- Hotel location: no more than 15 minutes' drive from the venue,
- Extensively refurbished within the past 10 years,
- At least 70% positive reviews on platforms such as Google, TripAdvisor, or Booking.com,
- Reception staff must be English-speaking, capable of performing fast group check-ins and efficiently resolving issues.

10.3. On-site catering

Catering must be provided for all Officials and Referees, event staff, volunteers, and athletes on site.

- Officials and Referees: Catering should include a minimum three-course lunch,
- Athletes: Provision of snacks, fruits, and drinks in their designated areas,
- Volunteers and Event Staff: Catering is at the discretion of the Local Promoter / LOC, ensuring an appropriate combination of carbohydrate sources, fresh vegetables, and lean-protein-rich foods.

10.4. Miscellaneous

- ICE: Large quantity of ice will be required at both the hotel and venue. The exact amounts should be confirmed in advance with the FIVB/CEV Beach Volleyball Department.

11. MARKETING & BRAND – OPPORTUNITIES AND GUIDELINES

Marketing and branding opportunities, along with the corresponding guidelines, are provided by the CEV Beach Volleyball Department. Further details are included in the Candidature Application Guidelines, Venue Branding Guidelines, and the Master Plan.

12. CEV CLOUD

The CEV Cloud is a platform used as the digital library for the Local Promoter / LOC to:

- **Download** all files shared by CEV (Venue Branding Guidelines, Event Rider, Master Plan and timelines, banners, backdrop brochure templates, logos, etc.),
- **Upload** all necessary materials, graphic templates, documents, and forms required by CEV submitted for approval. CEV will share the respective link with the local promoter/LOC to access this platform.
